ACCESSORIES

Our own design or tried and tested by us - see web site for full range of numnahs, girths, Webbers, breastgirths etc. etc.

Also the brand new *FnE* Twin-Girth system.

Contact us, by phone or [e-mail](mailto:info@fnesaddles.com), and we will arrange for one of our trained fitters to come out and give you a good try-out of the saddle. It will be fitted to your horse, and you can ride out for a half-hour hack, or have a schooling session. We charge £55 including travel, with £30 per additional horse.

THE UNIQUE *Easiflex* TREE

All *Free'n'Easy* saddles are built from best English leather in Black or Havana, or from high tech synthetic suede, on our own robust but flexible polyurethane *Easiflex* tree, available in seat sizes 17" and 18".

The centre void allows us to make the seat super-comfortable.

The *Easiflex* panels, with their clever sandwich construction of Acetal and Open Cell Foam, distribute the rider's weight and provide excellent shock absorption.

The saddle is individually fitted to the horse, to provide comfort and freedom of movement.

Adjustable stirrup bars and the unique seat levelling function ensure that the rider sits in a centred and balanced position.
